09:00	Breakfast Briefing
09:45	The AI Arms Race, Why Big Tech You Behind the Curve
11:00	Data is the New Oil - Beyond Refining Yours?
Lunch	The Internet of Things... The Internet of Threats?
13:30	Predictive Control, When AI Doesn't Learn If Learn It Decides

RSVP OR INQUIRES: NAME@EMAIL.COM-123-456-7890

□ One-Day Classified Briefing: Session Schedule

08:00 AM – 09:00 AM

Arrival, Registration & Breakfast Briefing

Informal networking with coffee, tea, and continental breakfast. Secure briefing packs distributed.

□ SESSION 1: The Invisible Battlefield

09:00 AM – 09:45 AM

The AI Arms Race: Why Big Tech Wants You Behind the Curve.

Speaker: Former CTO of a multinational tech firm or AI think tank analyst.

An exposé on how top firms weaponize AI to reshape competition—and how they're deliberately keeping smaller players out of the innovation loop.

09:45 AM – 10:30 AM

Data Is the New Oil—But Who's Refining Yours?"

Speaker: Cybersecurity expert or former intelligence consultant

The dangerous truth about data commodification and how much of your company's value chain is being mined without your knowledge.

□ SESSION 2: The Smart Trap

10:45 AM – 11:30 AM

The Internet of Things... or the Internet of Threats?

Speaker: IoT systems engineer or whistleblower from a smart tech firm

Unpacking how embedded sensors and connected devices expose businesses to external interference and hidden surveillance.

11:30 AM – 12:15 PM

Predictive Control: When AI Doesn't Just Learn—It Decides

Speaker: Data scientist with ethics/AI bias experience

Why letting machines "predict" market behavior could turn into letting them dictate market access, pricing, or policy.

□ **12:15 PM – 01:30 PM**

Lunch & Private Roundtable

Breakout discussions on risk mitigation strategies and boardroom implications.

□ SESSION 3: Systemic Sabotage or Digital Evolution?

01:30 PM – 02:15 PM

The Illusion of Innovation: Why Your Digital Transformation May Be a Trojan Horse.

Speaker: Corporate strategist or enterprise IT consultant

Digital tools that promise efficiency may actually embed external control—via cloud, SaaS, or remote update systems.

02:15 PM – 03:00 PM

The Data Cartel: How Tech Giants Are Building Private Empires

Speaker: Competition lawyer or antitrust specialist

A look at hidden monopolies and how the new tech empires bypass regulation, create lock-ins, and consolidate dominance.

□ **SESSION 4: Retaking Control**

03:15 PM – 04:00 PM

Corporate Surveillance: Are Your Tools Spying on You?

Speaker: Ex-Google/Microsoft security insider or forensic IT auditor

How embedded analytics, CRM systems, and productivity tools may be sending your company's internal activity to third parties.

04:00 PM – 04:45 PM

Ethics vs. Efficiency: The Dangerous Seduction of Smart Tech.

Speaker: Academic or ex-regulator specializing in corporate ethics and AI governance

What happens when "better, faster, cheaper" becomes "less human, less secure, less free."

□ **CLOSING STRATEGY SESSION**

05:00 PM – 05:45 PM

Survival Strategy: Staying Sovereign in a World of Smart Everything.

Panel: Senior legal advisor, tech CEO, business continuity strategist

Concrete frameworks and policies to protect your data, your autonomy, and your business future.

□ **07:30 PM – Late**

Golf Awards • Cocktails • Executive Networking Dinner
